Children: Bret and Rex
Grandchild: Tiger

After departing SSHS, I attended University of San Francisco and graduated with a BS in nursing in 1967. I moved back to Portland to work where I met and married Dick Hadley. We have been happily married for 45 years and have two amazing sons, Bret and Rex.

I received my masters degree in psychiatric nursing from OHSU in 1977 and then was licensed as one of the first psychiatric nurse practitioners in Oregon. I had a wonderful career in Clackamas County Mental Health supervising teams of staff who were charged with keeping seriously mentally ill clients stable and occupied in the community. It was never dull!

Over the years I kept in touch with the family I stayed with in Sweden in 1962. In 1998 Dick and I went to Sweden and spent two weeks seeing the country with my Swedish "sister" Gunilla and her husband. Fabulous! She and I met in France twice and in 2007 she and her sister were finally able to come here.

Since retirement nine years ago, I have enjoyed dance, volunteer work, petanque (google it!), gardening, a French group, and most of all, spending time with my adorable 4-year-old grandson, Tiger.
