I retired in 2004 from Portland Tri-Met Transit after 30 years. I was among the first technicians to start the MAX rail system in Portland. My wife Barbara had retired a year earlier from United Airlines where she worked as a flight attendant for 36 years. We live in Battle Ground WA on an acre of landscaped property. I have a large hobby shop which I use for metal fabrication, metal artwork, wood projects, and electronic projects.

I was asked to come out of retirement to work part time in organizing and assist operating Portland Vintage Trolley #514 in Lake Oswego, OR. The train will offer a 45 minute scenic excursion train ride along the Willamette River. The Willamette Shore Trolley will start operating the summer of 2013. Anyone interested to ride the Trolley check out our website at www.oerhs.org. Charters of up to 42 people are available. The Oregon Electric Rail Historical Society also has a museum at Brooks, OR.
